

SpeedMath Level 6 Content

1. Addition: Rounding Large Numbers Beginning with 9
2. Addition: Breaking Up Numbers
3. Subtraction: Breaking Up Numbers
4. Subtraction: Reverse Three-Digit Numbers
5. Review 1
6. Rearranging to Multiply by 100
7. Rearranging to Multiply by 1,000
8. Double the 50
9. Multiplying Four-Digit Numbers by 11
10. Review 2
11. Multiplying Numbers by 12
12. Multiplying Numbers by 15
13. Multiplying Numbers by 25
14. Multiplying Numbers by 50
15. Review 3
16. Division: Breaking Up Divisors
17. Division: Finding Remainders When Dividing by 5
18. Division: Finding Remainders When Dividing by 8
19. Division: Finding Remainders When Dividing by 9
20. Review 4
21. Division: Dividing Numbers by 25
22. Adding Fractions with Unlike Denominators
23. Subtracting Fractions with Unlike Denominators
24. Multiplying Fractions and Whole Numbers
25. Review 5
26. Multiplying Identical Mixed Numbers with the Fraction $\frac{1}{2}$
27. Multiplying Mixed Numbers with Identical Fractions When the Numerator Is 1
28. Multiplying Mixed Numbers with Identical Whole Numbers
29. Dividing Fractions by Whole Numbers
30. Review 6
31. Converting Fractions to Percentages
32. Percentage: 5% of a Number
33. Percentage: 15% of a Number
34. Percentage: 20% of a Number
35. Review 7
36. Percentage: 45% of a Number
37. Squaring Numbers Ending with 5
38. Squaring Numbers Beginning with 9
39. Squaring Numbers Ending with 7
40. Review 8
41. Squaring Numbers Ending with 8
42. Squaring Numbers Ending with 9
43. Squaring Numbers from 40 to 50
44. Adding a Series of Consecutive Numbers
45. Adding a Series of Numbers
46. Review 9
47. Review 10
48. Review 11
49. Review 12
50. Review 13
51. Review 14
52. Review 15
