This guidance program is tailored to meet each individual's learning needs, abilities, and skills. Each student can pace herself/himself under expert guidance. Students will practice on the grade level standardized tests. Test-taking techniques will be taught. Student's progress will be tracked and sent home periodically along with recommendations. Techniques learned guarantee a measurable difference not just in your student's test scores but also in improving confidence, motivation and concentration. We emphasize in teaching fundamental skills, which will help students build solid foundation for lifelong learning.
