Computer Programming

AP Computer Science & Learn to Code this Summer!

Students learn to program using Java, HTML, JavaScript, Python, and Scratch in summer camps. Younger students learn to program games or Robots, while high school students learn Java and prepare for the Computer Science AP tests. Classes meet daily, Monday through Friday, in the afternoons 1-4pm. Students may register for one to eight weeks. The first class starts June 12, 2017.
