

Teacher Profiles

I have a Master degree of Technology in Production Engineering.
I am a corporate IT professional and a certified Java trainer.
I have trained over 4,500 corporate employees throughout the world. I'd worked with Craig Larman in Java Patterns. I look forward to training the next generation computer engineers at MathEdge.

I am a college student at Cal Tech majoring in Computer Science.

I have been tutoring middle school students in advanced math and physics; and teaching high school students in Java and AP Computer Science.
I am a scientist. I patented Smarter Photovoltaic Systems (SPVS), a product that provides more reliable solar energy to homeowners and undeveloped countries.
I was awarded 2nd place out of 300+ teams for developing a more efficient solar panel system at the International Conrad Spirit of Innovation Challenge.

My passion is coding and robotics. I took part in various hackathons. I was the captain for my high school Robotics team competed in various robotics competitions. I was proud that I led my team to be placed in the national final in the "First" Robotics Challenge, the biggest robotics competition in the nation.
