(408) 725-2680, [mathedge@gmail.com](mailto:mathedge@gmail.com) Cupertino Site (7250 Bark Ln, San Jose)

MathEdge Afterschool program is designed around the 21st century learning and teach the fundamentals of S.T.R.E.A.M education concepts. We focus on creating a fun and inspiring learning environment in key curriculum areas like Math, Language, Science, Art, and Lego Robotics. Our unique MathCore and EnglishCore programs focus on developing Problem Solving Skills and Creative Writing for students to succeed with Common Core and excel in school. Our Science and Lego Robotics curriculum, in collaboration with Bricks4Kidz, is designed to stimulate critical thinking, problem solving, collaboration and effective communication. At MathEdge and Bricks4Kidz we take the stress out of learning and give your child an extraordinary experience to succeed in today's world of engineering and robotics.
